ENEMY ARRESTED IN MID-COURSE

Now Only Striking at Weak Points-Capture of Montdidier Too Late for Profit.

Ottawa, Ont., March 30 .- "The situation now is clearer than at any time since the beginning of the offensive," says the Reuter correspondent at French headquarters in a message received here last night. "The enemy arrested in mid-course, has abandoned marching straight upon objectives and breaking down resistance by overwhelming numbers He now is striking at estimated weak spots in order to drive us back as far as possible before he himself is brought to a standstill.
Thus, the enemy drive down the
Dise valley is finally arrested.
Attempts to cross the Oise farther north failed and the bridges now are destroyed.

"The village of Pon. Leveque, be-low Noyon, has been recaptured and enemy driven from the heights "The enemy's capture o Montdidier was just too late for him to profit by it as French forces were able to en-gage the Germans to the west and bring the advance to a standstill, thus nullifying their efforts to pierce the function of the Anglo-French armles. The hinge between the English and French armies will never be broken as the junction now is co ered by French forces strong enough to meet

Only for Filling Gaps. "Eighty-seven enemy divisions have been identified on fifty miles of battle front, comprising the pick of the German troops. The French steadily engaged three guard divisions, the famous Brandeburgers and some the best Bavarian divisions. Before the offensive the Germans had 109 divisions in line on the British front and seventy-six divisions in reserve. The enemy, therefore, has already had engaged more than the whole of the reserves in France in the present bat-tle and has also denuded c.rtain sec-tors of his troops. To replace the wastage the enemy possess about twenty divisions and conceivably forty of inferior material as useful for filling gaps, but not for winning bat-tles."

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no-operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen. Carpenter, 774D Marcellus avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—(Adv.)

TURN HANDS OF **CLOCK FORWARD**

Daylight Saving Plan Goes in Effect Saturday at Midnight All Over United States.

Washington, March 30.-Turn the hands of your clocks and watches forward one hour before retiring tonight and add one hour of daylight to the nation's effort to win the war.

Everybody's doing it, and if you fail, you will be an hour late to church tomorrow, an hour late to work Monday morning and just one hour behind everybody and everything for the next seven months.

The official time-pieces, such as the clocks of the naval observatory, and other official agencies by which time is fixed in this country will not actually be advanced to the new "clock time" until 2 o'clock tomorrow morning, but as the average man then will be losing a precious hour of sleep without the knowing it, the best and surest way is for every one to turn clocks and watches one hour before retiring tonight and proceed to sleep with the satisfying knowledge that by one hour's sacrifice millions of hours of daylight have been added to the nation's resources for fighting

Agreed to Deception! ing hours, railroad schedules or in anything else. The clock is merely between them. The enemy has only going to lie to everybody one hour, but everybody has agreed to the deception and will forget that according to "The spectacle of the battlefield car-

caught between terminals at 2 o'clock tomorrow morning, when time officially is changed, merely will arrive one hour late; when they start out again "Ar they will be on the new time. The durance may be mentioned that of a that we receive from the free nations task of resetting clocks all over the detachment which marched eighteen of South America and we know that nouncement was made at the war de-partment today that one razor, one steel mirror and one shaving brush have electrical clocks will find it a have electrical clocks will find it a tacks, twice recaptured a certain vil mechanical task. Large corporations lage and dug trenches." time-pieces scattered through their plants will find the labor cost of resetting clocks fast running into money. The government itself has thousands of clocks in public buildings which will keep men working un-til dawn tomorrow resetting them.

Business as Urual.

Despite the fact that daylight savng has been a topic of world discussion for a long time, has been de bated on the floors of congress and talked about everywhere, especially since the war began, there is still the probability that some persons will fail to comprehend it. It is too simple to go wrong about. Simply turn clocks and watches chead one before retiring tonight. Then forget that you ever changed them and go about "business as usual."

Left to Newspapers.

Caution to the public to move clocks ahead an hour to comply with the law will be left to the r wspapers. President Wilson, it was disclosed today, had considered issuing a proclamation, putling into effect he time-changing measure, but de-ided not to do so on the sug-stion that newspapers would accomplish the

Pro-Germans Arrested For Seditious Utterances

(Special to The News.) Huntsville, Ala., March 30.—J. F. Mattaner, claiming to be a traveling man out of Gainesville, Ga., and Fritz Hummel, a well-known stonemason and member of a popular family of German descent, and who has lived in this city since the close of the Civil war, were arrested late last night by United States Deputy Marshal Colbert on charges of making seditious remarks concerning the war situation.

Hummel made the remark that he knew the country had been sold out to England and should be punished for Wm. E. Payne, both prohibition in-

it, claiming at the same time that he was loyal to America.

Mattauer, so witnesses declare, said he hoped the Germans would kill every British soldier in France because England had caused this war.

Both men were given preliminary trials before Commissioner C. L. Watts, and Mattauer in default of \$5,000 bond was committed to jail, while Hummel was given a \$1,000 bond, which he made. which he made,

APPOINTMENT OF FOCH IS PRIME DEVELOPMENT

Means Co-Ordination of All Armies Opposing Germans on Western Front.

Washington, March 30.—The appointment of Gen. Feeh, French chief of staff, to supreme command of the allied and American forces in France is regarded here today as the important development in the situation on the western front.

The elevation of Gen. Foch means the co-ordination of all the armies opposing the German onslaught. This a step long urged by American

and French military men.

Although it was learned President
Wilson had been officially advised of
the appointment when he sent a
message to Gen. Foch yesterday, congratulating him on "his new authority," there was no explanation at the White House of what the president meant. The Units States, however. always has advocated the concentration of the military power in France in the hands of one general and the suggestion vas heard that Secresuggestion vas heard that Secretary Baker's recent visit to France and his later trip to England might be connected with the development.

The naming of Gen. Foch went a great way to strengthen the belief that an Anglo-French-American countries.

Communication Roads Raked With Oreeping Barrages, Preventing Enemy Attack.

Canadian Army Headquarters, March \$0.—(By Canadian Press, Limited.)— From early last night until 6 o'clock this morning the noise of guns has been persistent upon the whole front from the south to Hill 70, in the north. Steadily for over ten hours our heaviest field guns, trench mortars and ma-chine guns maintained their fire on thousands of yards of front against the enemy trenches.

At 11 o'clock and again at 5:30 our artillery fire increased to tensity, the enemy assembly and concentrated areas and communication roads being raked with creeping bar-rages. The intensity and duration of the fire was such that no enemy attack developed north of Oppy.

LATIN-AMERICA **ALSO CONCERNED**

Viscounts Bryce and Northcliffe Address Messages to South American Republics.

London, March 30.—Latin-America's vital interest in Germany's plan of aggrandizement and attempt to crush all world democracies is pointed out in messages ac-dressed to the people of all the dressed to the people of all the South American republics by Viscount Bryce, former ambassador to the United States, and Viscount Northcliffe.

"This war," says Lord Bryce, "is unlike any other the world has seen, not

only in the vastness of its scale, but in the tremendous issues involved. It is a war of principle; a war waged for liberty against military tyranny; a war to save mankind from being enslaved by one ambitious and aggressive power whose military chiefs have pro claimed that they mean to dominate. Europe first and then the wostern hemisphere. That is what brought the United States to fight beside the allies in Europe. Her war aims are ours, to vindicate the public right which Ger-many outraged when she invaded Bel-gium; to re-establish the faith of treaties which Germany has shown she will violate whenever her advantage requires it: to secure immunity for noncombatants, whom the German government has massacred by thousands on sea and land, and to deliver freedom from the greatest peril that has ever threatened it.

"A German victory would vanish epublicanism from the world, for the German government rules by force, ear and cruelty.

fear and cruelty.

"The men of South America, where freedom took a new birth a century ago, fellow countrymen of San Martin, Bolivar, O'Higgins and of many another Argentine, Chilean and Uruguayan patriet whose memory is honored today, will surely give their sympathy to those who in Europe are fighting the battles of democracy and humanity

Lord Northeliffe, in his message,

"Latin-America is as vitally interested as North America in Germany's attempt to enslave the world. Latin-America seems out of the danger zone today, but the defeat of France and the British empire would be followed by an attack upon South America as surely as night follows day.

All Must Be Watchful.

"The German monster already ha cast greedy eyes upon your fair young republics of the south. The monster has his agents already among you, prepared for action if success should at tend his efforts to crush Europe and the east. The old tyrannies South America threw off were as nothing to those that are being imposed upon Belgium, Serbia, Poland, Ru-mania and Russia.

"I have no fear that Prussia will succeed in its attempt to dominate the world, but each and every one of us must be watchful and make prepara tion, which costs so little, while was We Europeans are touched and gratified by the sympathy of South America and we know that public of the United States."

MAYOR INVESTIGATES COWARDICE CHARGES

Against City Police—Press Of fices Wrecked by Mob in Anti-Conscription Riot.

Quebec, March 30.—Mayor Levigue today began a rigorous investigation of charges of cowardice against the city police growing out of last night's anticonscription demonstration, during which a mob wrecked the offices of the Chronicle and L'Evenment and played havon with records in the military registrar's office.

The newspapers supported the military service act. They also were demolished during similar rioting last

Authorities say that while the evident intention of the mob was to destroy records of cases pending in the exemption courts they succeeded only in scattering about a lot of blank forms and other unimportant papers. as all the registrar's records were in a safe deposit vault.

With militia patrolling the streets the city was quiet today and civil and military authorities gave assurances that measures already taken would prevent a recurrence of the trouble.
